

CLINICAL EVALUATION REPORT

Patient Information

Patient Name:	Shannon Reid	Date of Birth:	1938-11-29
MRN / Patient ID:	PT-XQ-82683	Report Date:	2012-07-29

Vital Signs Log

Time	Blood Pressure	Heart Rate (bpm)	Temp (°F)	SpO2 (%)	Weight (lbs)
08:00	135/81	76	98.3	100	151
12:00	113/72	92	98.2	100	151
16:00	119/74	78	98.0	98	151
20:00	130/81	80	98.7	99	151

Clinical Notes & Assessment

Primary Diagnosis Code: ICD-10 IMA-56.52

Patient report outlines transient joint stiffness and localized swelling in the lower extremities. Diagnostic findings show no evidence of deep vein thrombosis. Symptoms are consistent with mild osteoarthritis, managed conservatively.

The patient was admitted for observation following a minor syncopal episode at home. Physical examination was unremarkable except for mild orthostatic blood pressure changes. Neurological checks remained entirely normal throughout the stay.

Discharge Medications

- Metformin 500mg twice daily with meals for glucose management.
- Gabapentin 300mg three times daily for neuropathic pain.

Discharge Instructions

- Seek immediate medical attention if you experience chest pain, shortness of breath, or severe dizziness.
- Continue taking all prescribed discharge medications as directed.
- Follow up with your primary care physician within 7-10 days of discharge.
- Resume normal physical activity gradually as tolerated.

- Do not perform heavy lifting (greater than 10 lbs) for the next 2 weeks.
