

CLINICAL EVALUATION REPORT

Patient Information

Patient Name:	Cassandra Johns	Date of Birth:	1943-04-16
MRN / Patient ID:	PT-ZB-83570	Report Date:	2023-11-17

Vital Signs Log

Time	Blood Pressure	Heart Rate (bpm)	Temp (°F)	SpO2 (%)	Weight (lbs)
08:00	120/71	91	97.9	95	228
12:00	127/77	95	98.5	97	228
16:00	131/82	80	97.8	96	228
20:00	134/82	61	98.3	99	228

Clinical Notes & Assessment

Primary Diagnosis Code: ICD-10 SZQ-52.72

Clinical review indicates stable progression post-intervention. Vital signs remain within physiological limits. The patient reports improved tolerance to ambulation with minimal shortness of breath. Plan is to transition to home-based physical therapy.

Patient report outlines transient joint stiffness and localized swelling in the lower extremities. Diagnostic findings show no evidence of deep vein thrombosis. Symptoms are consistent with mild osteoarthritis, managed conservatively.

Discharge Medications

- Atorvastatin 20mg daily at bedtime for cholesterol.
- Lisinopril 10mg daily for blood pressure control.
- Gabapentin 300mg three times daily for neuropathic pain.

Discharge Instructions

- Seek immediate medical attention if you experience chest pain, shortness of breath, or severe dizziness.
- Maintain a low-sodium, heart-healthy diet as discussed.
- Continue taking all prescribed discharge medications as directed.
- Follow up with your primary care physician within 7-10 days of discharge.
- Do not perform heavy lifting (greater than 10 lbs) for the next 2 weeks.
