

PILLING® AND KMEDIC® SURGICAL INSTRUMENTS

Quality that builds confidence

For nearly 200 years, Pilling® quality instruments have been provided to surgeons across the world to help improve the standard of patient care. The Pilling® Brand is especially known globally in the CVT and ENT specialties with numerous proprietary instruments co-developed with leading surgeons in these fields.

George P. Pilling joined a company started in 1814 that fashioned jewelry and fraternal emblems and guided the business into a new role. As hospitals in the Philadelphia, Pennsylvania area needed new tools to provide improved care for their patients, the Pilling Company met that important need and established itself as the oldest surgical instrument manufacturer in the United States.

Today, the Pilling® Brand is an important part of the Teleflex® Brand portfolio, and continues its legacy in providing high quality, hand-crafted instrumentation that meets the surgeon's requirements.

Over the years, the Pilling® Brand has maintained high standards of quality and continues to emphasize customer service and satisfaction. As surgical procedural needs change, specialty surgeons can count on Pilling® branded instruments to meet their new requirements.

KMedic®, another member of the Teleflex® Family of brands, offers the most extensive line of orthopedic instruments with more than 2,000 patterns. Just like our Pilling® brand, our KMedic® Line of orthopedic instruments conform to the highest standards of precision and reliability, consistency of pattern and lasting value.

CROSS REFERENCE LIST

- Simplify instrument ordering by cross referencing instruments with leading suppliers

PRICING/BUDGETING

- Dollar values for each instrument, set, and specialty
- Easy access to pricing to assist in budgeting and financial planning

REPORTS

- Generate staff productivity and set use reports
- Track data on set usage to help identify both high and low set usage

N-COMPASS SERVICES PROVIDED BY TELEFLEX:

- Software installation
- On-site physical set inventory
- Data entry and verification
- Digital images of Pilling®, Weck® and KMedic® Instruments
- Standardization of instrument patterns
- Customized count sheets
- On-site training
